SUMMARY

Detail-oriented Software Developer with a strong foundation in Computer Science and hands-on experience in both backend and frontend technologies. Proficient in JavaScript, Typescript, PHP, HTML, and CSS, along with expertise in backend development using PHP and Node.js, and frontend frameworks such as React and React Native. Skilled in database design with MySQL and PostgreSQL. Committed to delivering high-quality web design and development solutions, leveraging a comprehensive understanding of modern technologies to drive innovative results.

OBJECTIVE

Detail-oriented Software Engineer with a passion for developing innovative solutions. Seeking to leverage expertise in programming languages and software development processes to contribute to a dynamic team. Committed to achieving excellence through collaboration, coding best practices, and delivering high-quality software solutions.

PROFESSIONAL EXPERIENCE

SOFTWARE DEVELOPER

Coinly . Remote - Nigeria | November 2024 - present

Developed, tested, and maintained the company's software applications in diverse programming languages(PHP, JavaScript - Reactnative Framework, MySQL database). Collaborated with cross-functional teams to design user-friendly interfaces and improve overall system performance. Analyzed user requirements, troubleshoot issues, and implemented solutions to enhance functionality and efficiency.
