

# ANOIBI DICKSON MIRACLE

## SOFTWARE ENGINEER | FULL-STACK DEVELOPER

Lafia, Nasarawa, Nigeria • +234 814 636 0057 • anoibidickson@gmail.com

**Portfolio:** <https://codewithmiracle.vercel.app> • **GitHub:** <https://github.com/Dickson2020> • **LinkedIn:** <https://www.linkedin.com/in/dickson-anoibi-1458a33a6>

### SUMMARY

Software Engineer with hands-on experience building and deploying production web and mobile applications across fintech, transportation, and AI-powered systems. Experienced across frontend, backend, mobile, databases, REST APIs, authentication, real-time systems, testing, and deployment. Strong with React, Next.js, TypeScript, React Native, Node.js, Express.js, PHP, PostgreSQL, MySQL, MongoDB, Docker, and CI/CD. Comfortable taking features from requirements through implementation, integration, testing, and production.

### TECHNICAL SKILLS

**Languages:** TypeScript, JavaScript, PHP, Java, Python

**Frontend:** React, Next.js, Tailwind CSS, Redux Toolkit, Zustand, Responsive UI

**Mobile:** React Native, Expo, Android, iOS, Cross-Platform Development

**Backend:** Node.js, Express.js, NestJS, PHP, Laravel, Java Spring Boot

**APIs & Architecture:** REST APIs, GraphQL, WebSockets, API Integration, Microservices, System Design, API Security, OAuth, JWT

**Databases:** PostgreSQL, MySQL, MongoDB, Redis

**Cloud & DevOps:** AWS, Azure, Docker, CI/CD, GitHub Actions, Vercel, Linux, Nginx

**Testing:** Jest, Playwright, Selenium, Unit Testing, Integration Testing, Debugging

**AI/ML:** OpenAI API, LLM Integration, Prompt Engineering, Machine Learning, Computer Vision

**Tools:** Git, GitHub, Jira, Agile, Scrum, Code Review, Technical Documentation, Performance Optimization

### PROFESSIONAL EXPERIENCE

#### Senior Full-Stack Developer — Coinly Limited

Nigeria | Nov 2024 – Feb 2026

- Led development of a production fintech mobile application supporting bill payments and cryptocurrency transactions.
- Built and integrated backend services using Node.js, PHP, and PostgreSQL to support core application workflows.
- Developed and maintained user-facing features with focus on reliability, usability, and production readiness.
- Deployed applications to Google Play Store and Apple App Store, supporting production release delivery.
- Collaborated with designers and backend team members to deliver production-ready features and participated in code reviews.

#### Full-Stack Developer — Kudipoint Mobile Application

2025

- Developed a fintech application supporting transfers, bill payments, and gift card trading.
- Built cross-platform mobile experiences using React Native, Expo, and TypeScript for Android and iOS.
- Implemented authentication, wallet, transaction, and API integration flows.
- Worked across frontend and backend requirements through production deployment.

#### Full-Stack Developer — Swift Ride (Ride-Hailing Platform)

2025

- Built a ride-booking mobile application using React Native with booking, account, and trip-management workflows.
- Developed backend services using PHP and MySQL and integrated application APIs.
- Implemented booking logic, user accounts, trip management, and transportation workflows.
- Designed application architecture with scalability and real-time operational requirements in mind.

#### Research & Development — AI Maize Disease Detection System

2025

- Designed a computer-vision crop disease detection system and integrated a machine-learning model with Raspberry Pi hardware.
- Built image-detection and treatment-recommendation workflows.
- Produced datasets and technical documentation supporting system development and model integration.

## Frontend Developer — Ghost Team Developer Dashboard

2023

- Built a developer collaboration dashboard using Next.js and Tailwind CSS.
- Implemented responsive team workflow and shared-project features.
- Integrated PostgreSQL-backed services and contributed to application functionality and frontend delivery.

## EDUCATION

### Bachelor of Technology (B.Tech), Computer Science

*Federal University of Technology, Minna, Nigeria | 2019 – 2025 | Second Class Honours*

## CORE STRENGTHS

End-to-end feature ownership • Frontend architecture • API design and integration • Cross-platform mobile development • Scalable backend architecture • Secure API development • Debugging and reliability • Code review • Technical collaboration
